The year at an American college is divided into two semesters or three quarters. A semester includes 15 weeks; a quarter includes 10 weeks. American college students usually go to school from September to May. They can also study during the summer.

Students choose their classes a few weeks before the start of each term. Universities and colleges offer a great many classes in the students' main areas of study and in other areas as well. Students must take both. These include science, math, computer, history and English. Other classes such as dance, theater, or sports may be just for fun. Tests are usually given in the middle of the term and at the end. The final exam is extremely important. In some classes, the professor asks the students to write a research paper or complete a certain task instead of taking a test.

Classes at an American college are usually organized through lectures. For example, a student may attend two or three lectures a week by one professor. There may be as many as several hundred students at each lecture.

Nowadays people are increasingly aware that wildlife all over the world is in danger. Many species of animals are threatened, and can easily (46)_____ extinct if we do not make an effort to protect them. There are many reasons for this. In some cases, animals are hunted for their fur or for other (47)_____ parts of their bodies. Some birds such as parrots are caught alive and sold as pets. For many animals and birds, the problem is that their habitat – the place (48)_____ they live – is disappearing. More land is used for farms, houses or industry, and there are fewer open (49)_____ than there once were. Farmers use powerful chemicals to help them to grow better crops, but these chemicals pollute the environment and harm wildlife. The most successful animals on earth – human beings – will soon be the only ones that (50)_____ unless we can solve this problem.
